**SUBJECT: 2012 and Initial 2013 Model Year Fuel Economy Ranges**

Dear Manufacturer:

Enclosed with this letter is an updated list of fuel economy ranges of comparable vehicles for the 2012 and 2013 model years. The 2013 ranges include separate ranges for small and standard Sport Utility Vehicles (SUVs), ref. 40 CFR 600.315-08(a)(2)(v) and (vi). The 2013 ranges may be used for 2013 model year vehicles until EPA provides updated 2013 ranges in a future guidance letter (but should not be used for 2012 model year vehicles).

Under the provisions of 40 CFR 600.301(b)(2), these ranges must be included on all approved labels starting fifteen (15) calendar days after the date of this letter.

If in the course of the model year, you add a model which exceeds the ranges provided with this letter, you may update the ranges for that model appropriately. For vehicles using the 2012 label format, we ask that you do this by placing the combined fuel economy indicator arrow at the end of the range, and increasing or decreasing the ranges provided in this letter.

If you have questions about this letter, please contact your certification team representative.

Sincerely,

A handwritten signature in black ink, appearing to read "Karl J. Simon".

Karl J. Simon, Director  
Compliance and Innovative Strategies Division  
Office of Transportation and Air Quality
